

ROAR CIRCUS

BOMKA

Everything you don't expect
from a juggling show,
in a juggling show.

ROAR CIRCUS

Roar Circus is a French-German comedy duo born from a spontaneous improvisation in October 2019.

Since then, they have created several hilarious stage acts. Their creativity, lively energy, and unique mix of physical comedy and juggling have drawn the attention of circus festivals all over Europe.

In 2021, Roar Circus started the creation of "The Roar Circus Show" to expand their acts into an even more silly piece of art. The show was adapted to the street in 2024 to reach a wider audience.

Roar Circus is also renowned for their expertise in hosting international gala shows.

BOMKA

Two superhero jugglers, synchronised swimming to John Lennon, the crash of a fake helicopter with real fire... That was the show.

But during the funeral of a bird, they somehow get a baby. Facing the reality of the situation, they take responsibility and transform their misunderstood art into a very professional show.

Bomka pulls audiences into a chain of wildly imaginative adventures, each scene flowing into the next. From juggling llamas to moments of tenderness and loss, logic and necessity are joyfully pushed aside, creating a world where anything feels possible.

SIMON MOREAU

He studied film and visual effects before coming to Berlin. There, the local circus scene gave him the inspiration to turn his hobby into a profession.

Since then he has been training corporal mime, clowning and juggling with different teachers. In 2022, he studied at the clown school "Le Samovar" in Paris,

In 2018 he put together the street show "L'Escale" and has been touring with it in Europe's cities and festivals for the last three years.

MARC ZEUN

Since 2012 he performed, mainly in the clownesque juggling duo "Die Freudenbergs", but also showed solo pieces on festivals, stages and streets all over the world (Europe, USA, Central America, Asia, Australia).

He has a completed circus pedagogical training and since 2017 he is a permanent part of the children and youth circus "Zirkomania" in Leipzig.

From 2018 he does not only juggle on stage but hosts cabaret shows, open stages and gala shows at various international festivals.
